ĐỀ BÀI

A. TRẮC NGHIỆM (6.0 points)

I. LISTENING (2.0 points)

Part 1. Listen to the conversation and decide whether the statements are True (T) or False (F).

Question 1: Janie read about an environmental group during science class.

- A. False** **B. True**

Question 2: Janie says that most of the Earth's animals live in jungles.

- A. False** **B. True**

Question 3: Neil and Janie have volunteered with the same environmental group.

- A. False** **B. True**

Question 4: Neil sold environmentally-friendly items as a volunteer.

- A. False** **B. True**

Part 2. You will hear Tommy talking about the holiday. Listen and choose the correct answer.

Question 5: In San Francisco, _____.

- A. it's difficult to rent a car**
- B. there are lots of parking spaces**
- C. buses are cheaper than other means of public transport**
- D. people travel around the city by tram**

Question 6: What did Tommy do on Saturday afternoon?

A. hiking to the top of a hill

B. getting around the city

C. visiting the China Town

D. shopping on Grand Avenue

Question 7: On Sunday morning, Tommy's family _____.

A. went to the department store

B. went on a boat trip

C. bought some souvenirs

D. took photos of the Golden Gate Bridge

Question 8: When will Tommy come back to London?

A. on Friday

B. on Saturday

C. on Monday

D. on Tuesday

II. USE OF LANGUAGES (2.0 points)

Mark the letter A, B, C, or D to indicate the word whose underlined part differs from the other three in pronunciation in each of the following questions.

Question 9: A. demandeded B. adresseded C. suggesteded D. supporteded

Question 10: A. statue B. ruler C. ruins D. full

Mark the letter A, B, C, or D on your answer sheet to indicate the word(s) CLOSEST in meaning to the underlined word(s) in the following question.

Question 11: It's important to raise people's awareness of preserving both natural and cultural heritage.

A. developing

B. protecting

C. promoting

D. creating

Mark the letter A, B, C, or D on your answer sheet to indicate the word(s) OPPOSITE in meaning to the underlined word(s) in the following question.

Question 12: If people travel more by public transportation, we can cut down on the greenhouse gases in the air.

A. rise

B. develop

C. improve

D. increase

Mark the letter A, B, C or D to indicate the correct answer to each of the following questions.

Question 13: Huế was _____ the political _____ the cultural centre under the Nguyen dynasty.

A. not only / as well

B. neither / nor

C. both / and

D. either / or

Question 14: We _____ around Hoan Kiem Lake when it suddenly started to rain.

A. strolled

B. had strolled

C. were strolling

D. are strolling

Question 15: Built in 1906, Makapuu Point _____ has long been of the utmost importance as it guides ships from the west coast of the US to Honolulu.

A. lighthouse

B. mausoleum

C. castle

D. palace

Mark the letter A, B, C, or D on your answer sheet to indicate the underlined part that needs correction in the following question.

Question 16: You will look beautifully if you put on that dress. Trust me.

A. beautifully

B. put on

C. will look

D. that dress

III. READING (2.0 points)

Part 1: Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct word or phrase that best fits each of the numbered blanks. (1.0 point)

RUNNING OUT OF TIME ...

From melting arctic ice caps to forest fires, global warming is heating up the planet and damaging (17) _____ Earth's ecosystems. Global warming is the rise of the Earth's temperatures caused by an increase of CO₂ and other greenhouse gas emissions. Global warming has increased very much (18) _____ the past 100 years because people are using more and more electricity and driving more cars. We are also cutting down more trees that clean the air.

Scientists have been studying the effects of global warming on different ecosystems for a long time and what they have found is quite worrying. The (19) _____ temperatures have caused many problems in ecosystems. Arctic ice is melting, causing sea levels to rise and floods in seaside areas. As a result, animals and plants are losing their homes. As oceans and rivers become warmer, the water temperatures keep changing. (20) _____ marine animals cannot live in these new conditions. Since the 1970s, population of fish in lakes and rivers have decreased by 76 percent.

Question 17: A. no article

B. a

C. an

D. the

Question 18: A. at

B. in

C. on

D. by

Question 19: A. to rise

B. rised

C. rising

D. risen

Question 20: A. Some

B. Little

C. Any

D. Few

Part 2: Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the questions. (1.0 point)

Plastics which were produced from fossil fuels are just over a century old, but they have revolutionized our life completely. The great advantages plastic offered led to a throwaway trend that made us discover plastic's dark side: the threat it **poses** to our environment and life. Plastic pollution is one of the main causes of marine species extinction, health problems for human beings and animals alike, and the destruction of our ecosystems. According to Greenpeace, more than 100,000 sea creatures and a million sea birds die every year after eating plastic or getting trapped in plastic rubbish.

Every year, the world produces more than 380 million tonnes of plastic. In the next second while you're reading this paragraph, people around the globe will use more than 160,000 plastic bags and they'll throw away more than 20,000 plastic bottles. About 10% of plastic will be recycled, and some will go to landfills, but a lot of it will end up in the waterways and eventually in the ocean. Experts estimate that there are already 5.25 trillion pieces of plastic waste in the world's oceans. Because plastic isn't biodegradable, it won't decompose naturally, so all the plastic that we have now in the world will exist forever. Experts are warning that if we don't take urgent action, plastics in the ocean will outweigh fish by 2050. There are many ways we can do to keep plastic out of the ocean. We can swap plastic bags for reusable ones which are made of cloth or fiber, reduce the use of disposable cutlery as well as food containers, and avoid plastic wrappings if possible. We can also join in clean-up campaigns in your local community. Every little helps!

Question 21: The word 'poses' in the first paragraph is closest in meaning to _____.

- A. impresses B. damages C. develops D. creates

Question 22: Plastic pollution _____.

- A. affects the fishing industry
B. has a deadly effect on wildlife
C. creates infectious diseases to human beings and animals
D. trap the ecosystem

Question 23: Around the world, people get rid of _____ per second.

- A. 380 million tonnes of plastic B. 20,000 plastic bottles
C. 160,000 plastic bags D. 5.25 trillion pieces of plastic

Question 24: All of the following statements are possible solutions to ocean plastic pollution EXCEPT

- _____
- A. Make your own cutlery and food containers.
B. Avoid packaging items in plastic if not necessary.
C. Reduce your own use of single-use plastics.
D. Participate in a beach or river clean-up.

C. Some
D. Few

Part 2: Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the questions. (1.0 point)

Plastics which were produced from fossil fuels are just over a century old, but they have revolutionized our life completely. The great advantages plastic offered led to a throwaway trend that made us discover plastic's dark side: the threat it **poses** to our environment and life. Plastic pollution is one of the main causes of marine species extinction, health problems for human beings and animals alike, and the destruction of our ecosystems. According to Greenpeace, more than 100,000 sea creatures and a million sea birds die every year after eating plastic or getting trapped in plastic rubbish.

Every year, the world produces more than 380 million tonnes of plastic. In the next second while you're reading this paragraph, people around the globe will use more than 160,000 plastic bags and they'll throw away more than 20,000 plastic bottles. About 10% of plastic will be recycled, and some will go to landfills, but a lot of it will end up in the waterways and eventually in the ocean. Experts estimate that there are already 5.25 trillion pieces of plastic waste in the world's oceans. Because plastic isn't biodegradable, it won't decompose naturally, so all the plastic that we have now in the world will exist forever. Experts are warning that if we don't take urgent action, plastics in the ocean will outweigh fish by 2050. There are many ways we can do to keep plastic out of the ocean. We can swap plastic bags for reusable ones which are made of cloth or fiber, reduce the use of disposable cutlery as well as food containers, and avoid plastic wrappings if possible. We can also join in clean-up campaigns in your local community. Every little helps!

Question 21: The word 'poses' in the first paragraph is closest in meaning to _____.

- A. develops
- B. creates
- C. impresses
- D. damages

Question 22: Plastic pollution _____.

- A. has a deadly effect on wildlife
- B. trap the ecosystem
- C. affects the fishing industry
- D. creates infectious diseases to human beings and animals

Question 23: Around the world, people get rid of _____ per second.

- A. 160,000 plastic bags
- B. 20,000 plastic bottles
- C. 5.25 trillion pieces of plastic
- D. 380 million tonnes of plastic

Question 24: All of the following statements are possible solutions to ocean plastic pollution EXCEPT

- A. Participate in a beach or river clean-up.
- B. Reduce your own use of single-use plastics.
- C. Avoid packaging items in plastic if not necessary.
- D. Make your own cutlery and food containers.

B. TỰ LUẬN (2.0 points)

Part 1. Rearrange the words or phrases to make meaningful sentences. (0.5 point)

Question 25: my brother/ It/ who/ built / was / model houses.//

Question 26: complaining/ always / My teachers /are/ about /my homework.//

Part 2. Complete the sentences with the given beginnings in such a way that their meanings stay unchanged. (0.5 point)

Question 27: They began studying in the oceans in 2017.

→ They have _____

Question 28: Kim didn't visit the Shwedagon Pagoda. Peter didn't visit it, either.

→ Neither _____

Part 3. You write an essay about how to reduce our carbon footprint to protect our ecosystems (about 100 -130 words), using the given suggestions below as prompts. (1 point).

The solutions:

- Use public transportation
- Use energy-efficient appliances
- Don't use single-use plastics
- ...

The expected results:

- Reduce greenhouse gas emissions
 - Improve air and water quality
 - Conserve ecosystems
 - ...
-

A. TRẮC NGHIỆM (6.0 points)

I. LISTENING (2.0 points)

Part 1. Listen to the conversation and decide whether the statements are True (T) or False (F).

Question 1: Janie read about an environmental group during science class.

- A. False B. True

Question 2: Janie says that most of the Earth's animals live in jungles.

- A. False B. True

Question 3: Neil and Janie have volunteered with the same environmental group.

- A. False B. True

Question 4: Neil sold environmentally-friendly items as a volunteer.

- A. False B. True

Part 2. You will hear Tommy talking about the holiday. Listen and choose the correct answer.

Question 5: In San Francisco, _____.

- A. it's difficult to rent a car
B. there are lots of parking spaces
C. buses are cheaper than other means of public transport
D. people travel around the city by tram

Question 6: What did Tommy do on Saturday afternoon?

- A. hiking to the top of a hill B. getting around the city
-

C. visiting the China Town

D. shopping on Grand Avenue

Question 7: On Sunday morning, Tommy's family _____.

A. went to the department store

B. went on a boat trip

C. bought some souvenirs

D. took photos of the Golden Gate Bridge

Question 8: When will Tommy come back to London?

A. on Friday

B. on Saturday

C. on Monday

D. on Tuesday

II. USE OF LANGUAGES (2.0 points)

Mark the letter A, B, C, or D to indicate the word whose underlined part differs from the other three in pronunciation in each of the following questions.

Question 9: A. demandeded B. suggesteded C. supporteded D. addresseded

Question 10: A. ruins B. ruler C. statue D. full

Mark the letter A, B, C, or D on your answer sheet to indicate the word(s) CLOSEST in meaning to the underlined word(s) in the following question.

Question 11: It's important to raise people's awareness of preserving both natural and cultural heritage.

A. creating

B. promoting

C. protecting

D. developing

Mark the letter A, B, C, or D on your answer sheet to indicate the word(s) OPPOSITE in meaning to the underlined word(s) in the following question.

Question 12: If people travel more by public transportation, we can cut down on the greenhouse gases in the air.

A. develop

B. improve

C. rise

D. increase

Mark the letter A, B, C or D to indicate the correct answer to each of the following questions.

Question 13: We _____ around Hoan Kiem Lake when it suddenly started to rain.

A. are strolling

B. strolled

C. were strolling

D. had strolled

Question 14: Huế was _____ the political _____ the cultural centre under the Nguyen dynasty.

A. both / and

B. not only / as well

C. neither / nor

D. either / or

Question 15: Built in 1906, Makapuu Point _____ has long been of the utmost importance as it guides ships from the west coast of the US to Honolulu.

A. castle

B. palace

C. lighthouse

D. mausoleum

Mark the letter A, B, C, or D on your answer sheet to indicate the underlined part that needs correction in the following question.

Question 16: You will look beautifully if you put on that dress. Trust me.

A. will look

B. beautifully

C. put on

D. that dress

III. READING (2.0 points)

Part 1: Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct word or phrase that best fits each of the numbered blanks. (1.0 point)

RUNNING OUT OF TIME ...

From melting arctic ice caps to forest fires, global warming is heating up the planet and damaging (17) _____ Earth's ecosystems. Global warming is the rise of the Earth's temperatures caused by an increase of CO₂ and other greenhouse gas emissions. Global warming has increased very much (18) _____ the past 100 years because people are using more and more electricity and driving more cars. We are also cutting down more trees that clean the air.

Scientists have been studying the effects of global warming on different ecosystems for a long time and what they have found is quite worrying. The (19) _____ temperatures have caused many problems in ecosystems. Arctic ice is melting, causing sea levels to rise and floods in seaside areas. As a result, animals and plants are losing their homes. As oceans and rivers become warmer, the water temperatures keep changing. (20) _____ marine animals cannot live in these new conditions. Since the 1970s, population of fish in lakes and rivers have decreased by 76 percent.

Question 17: A. the

B. no article

C. a

D. an

Question 18: A. at

B. in

C. on

D. by

Question 19: A. rised

B. to rise

C. risen

D. rising

Question 20: A. Little

B. Any

C. Few

D. Some

A. neither / nor

B. both / and

C. either / or

D. not only / as well

Question 15: Built in 1906, Makapuu Point _____ has long been of the utmost importance as it guides ships from the west coast of the US to Honolulu.

A. lighthouse

B. mausoleum

C. palace

D. castle

Mark the letter A, B, C, or D on your answer sheet to indicate the underlined part that needs correction in the following question.

Question 16: You will look beautifully if you put on that dress. Trust me.

A. that dress

B. put on

C. will look

D. beautifully

III. READING (2.0 points)

Part 1: Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct word or phrase that best fits each of the numbered blanks. (1.0 point)

RUNNING OUT OF TIME ...

From melting arctic ice caps to forest fires, global warming is heating up the planet and damaging (17) _____ Earth's ecosystems. Global warming is the rise of the Earth's temperatures caused by an increase of CO₂ and other greenhouse gas emissions. Global warming has increased very much (18) _____ the past 100 years because people are using more and more electricity and driving more cars. We are also cutting down more trees that clean the air.

Scientists have been studying the effects of global warming on different ecosystems for a long time and what they have found is quite worrying. The (19) _____ temperatures have caused many problems in ecosystems. Arctic ice is melting, causing sea levels to rise and floods in seaside areas. As a result, animals and plants are losing their homes. As oceans and rivers become warmer, the water temperatures keep changing. (20) _____ marine animals cannot live in these new conditions. Since the 1970s, population of fish in lakes and rivers have decreased by 76 percent.

Question 17: A. a

B. the

C. no article

D. an

Question 18: A. in

B. at

C. by

D. on

Question 19: A. risen

B. to rise

C. rising

D. rised

Question 20: A. Any

B. Little

C. Few

D. Some

Part 2: Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the questions. (1.0 point)

Plastics which were produced from fossil fuels are just over a century old, but they have revolutionized our life completely. The great advantages plastic offered led to a throwaway trend that made us discover plastic's dark side: the threat it **poses** to our environment and life. Plastic pollution is one of the main causes of marine species extinction, health problems for human beings and animals alike, and the destruction of our ecosystems. According to Greenpeace, more than 100,000 sea creatures and a million sea birds die every year after eating plastic or getting trapped in plastic rubbish.

Every year, the world produces more than 380 million tonnes of plastic. In the next second while you're reading this paragraph, people around the globe will use more than 160,000 plastic bags and they'll throw away more than 20,000 plastic bottles. About 10% of plastic will be recycled, and some will go to landfills, but a lot of it will end up in the waterways and eventually in the ocean. Experts estimate that there are already 5.25 trillion pieces of plastic waste in the world's oceans. Because plastic isn't biodegradable, it won't decompose naturally, so all the plastic that we have now in the world will exist forever. Experts are warning that if we don't take urgent action, plastics in the ocean will outweigh fish by 2050. There are many ways we can do to keep plastic out of the ocean. We can swap plastic bags for reusable ones which are made of cloth or fiber, reduce the use of disposable cutlery as well as food containers, and avoid plastic wrappings if possible. We can also join in clean-up campaigns in your local community. Every little helps!

Question 21: The word 'poses' in the first paragraph is closest in meaning to _____.

- A. damages
- B. creates
- C. develops
- D. impresses

Question 22: Plastic pollution _____.

- A. creates infectious diseases to human beings and animals
- B. affects the fishing industry
- C. trap the ecosystem
- D. has a deadly effect on wildlife

Question 23: Around the world, people get rid of _____ per second.

- A. 160,000 plastic bags
- B. 380 million tonnes of plastic
- C. 5.25 trillion pieces of plastic
- D. 20,000 plastic bottles

Question 24: All of the following statements are possible solutions to ocean plastic pollution EXCEPT

- A. Avoid packaging items in plastic if not necessary.
- B. Participate in a beach or river clean-up.
- C. Make your own cutlery and food containers.
- D. Reduce your own use of single-use plastics.

B. TỰ LUẬN (2.0 points)

Part 1. Rearrange the words or phrases to make meaningful sentences. (0.5 point)

Question 25: my brother/ It/ who/ built / was / model houses.//

Question 26: complaining/ always / My teachers /are/ about /my homework.//

Part 2. Complete the sentences with the given beginnings in such a way that their meanings stay unchanged. (0.5 point)

Question 27: They began studying in the oceans in 2017.

→ They have _____

Question 28: Kim didn't visit the Shwedagon Pagoda. Peter didn't visit it, either.

→ Neither _____

Part 3. You write an essay about how to reduce our carbon footprint to protect our ecosystems (about 100 -130 words), using the given suggestions below as prompts. (1 point).

The solutions:

- Use public transportation
- Use energy-efficient appliances
- Don't use single-use plastics
- ...

The expected results:

- Reduce greenhouse gas emissions
 - Improve air and water quality
 - Conserve ecosystems
 - ...
-
