The phrase "healthy lifestyle" is a definition of how you should live if you want to get the healthiest body you can - one that both looks good and feels good. You know the obvious behaviors that describe someone who is healthy and takes care of themselves. A healthy person doesn't smoke, eats healthy foods with plenty of fruit, vegetables and fibers and, of course, exercises regularly. A healthy person also knows how to manage stress, gets good quality sleep each night, doesn't drink beer much, doesn't sit too much, does every thing in moderation all the time. When you look at everything that could possibly make a healthy lifestyle, you can see just how hard all of those things are in our current world.

There is no such thing as a "bad" food, but there are some foods you should try not to have regular basis, Fast food refers to food that can be prepared and served quickly. It is popular as the food is inexpensive, convenient, and tastes good. Because fast food is high in sodium and cholesterol, it isn't something you should eat often.

The good news is you don't have to change everything at the same time. In fact, the trick to healthy living is making small changes, taking more steps each day, adding fruit to your cereals, having an extra glass of water, or saying no to that second helping of buttery mashed potatoes. One thing you can do right now to make your lifestyle healthier is to move more.
