Part I. Read the passage and then choose the correct answer to each question. (1.0 point)

English is one of the most popular languages in the world. It comes second in the number of speakers after Chinese. In Vietnam, more and more people are studying English and they consider it a key to success. However, not everyone knows how to learn English effectively. The best way to improve the four skills: speaking, listening, reading, and writing is to practice regularly. You should make use of every opportunity to speak English with friends in class or at English speaking clubs or ourselves in front of the mirror. Learning by heart all the words does not help much if you do not read a lot because you will easily forget what you have learnt.

Reading books, listening to the radio and watching films are better ways to *memorize* words. Besides, English learners should not be so shy because making mistakes is unavoidable in learning foreign languages. Practicing speaking a lot is a good way to correct your mistakes. There is no need to worry about not having a native -English accent. It's more important to be able to speak clearly, so that people can understand us. Another way to improve the language is using dictionary. An English dictionary helps us a lot in that it shows us the phonetic pronunciation of every word, which part of the word is stressed. Learners can also exploit various meanings of a word, and look for the synonym and antonym.
