

## TRẮC NGHIỆM TIẾNG ANH 8 UNIT 12 CÓ ĐÁP ÁN

**Câu 1. Choose the letter A, B, C or D the word that has the underlined part different from others.**

- A. planet
- B. adventure
- C. galaxy
- D. solar

**Câu 2. Choose the letter A, B, C or D the word that has the underlined part different from others.**

- A. surface
- B. trace
- C. danger
- D. space

**Câu 3. Choose the letter A, B, C or D the word that has the underlined part different from others.**

- A. terrorist
- B. trek
- C. Venus
- D. Neptune

**Câu 4. Choose the letter A, B, C or D the word that has the underlined part different from others.**

- A. Jupiter
- B. buggy
- C. under
- D. uncontrollably

**Câu 5. Choose the letter A, B, C or D the word that has the underlined part different from others.**

- A. Venus
- B. poisonous
- C. surface

D. solar

**Câu 6. Choose the letter A, B, C or D the word that has the underlined part different from others.**

A. control

B. solar

C. told

D. terrorist

**Câu 7. Choose the letter A, B, C or D the word that has the underlined part different from others.**

A. outer

B. system

C. message

D. saucer

**Câu 8. Choose the letter A, B, C or D the word that has different stress pattern from others.**

A. adventure

B. messenger

C. poisonous

D. Jupiter

**Câu 9. Choose the letter A, B, C or D the word that has different stress pattern from others.**

A. alien

B. planet

C. explore

D. weightless

**Câu 10. Choose the letter A, B, C or D the word that has different stress pattern from others.**

A. buggy

B. Neptune

C. surface

D. transform

**Câu 11. Choose the letter A, B, C or D the word that has different stress pattern from others.**

A. experience

B. scientific

C. adventurous

D. biology

**Câu 12. Choose the letter A, B, C or D the word that has different stress pattern from others.**

A. system

B. Saturn

C. saucer

D. inform

**Câu 13. Choose the letter A, B, C or D the word that has different stress pattern from others.**

A. galaxy

B. dangerous

C. terrorist

D. controllable

**Câu 14. Choose the letter A, B, C or D the word that has different stress pattern from others.**

A. surface

B. explore

C. inform

D. contact

**Câu 15. Choose the letter A, B, C or D the word that has different stress pattern from others.**

A. buggy

B. poison

C. prevent

D. solar

Choose the letter A, B, C or D to complete the sentences

Câu 16. Scientists claimed that there \_\_\_\_\_ eight planets in our solar system.

- A. are
- B. were
- C. was
- D. is

Câu 17. This water is \_\_\_\_\_ poisonous that people here can't drink.

- A. too
- B. so
- C. enough
- D. such

Câu 18. I love \_\_\_\_\_ at pictures of the galaxy very much.

- A. seeing
- B. watching
- C. looking
- D. viewing

Câu 19. Space \_\_\_\_\_ is the main vehicle for astronauts to travel on the Moon.

- A. buggy
- B. system
- C. surface
- D. planet

Câu 20. I'm curious about the \_\_\_\_\_ space of the Earth.

- A. alien
- B. weightless
- C. outer
- D. poisonous

Câu 21. The atmosphere on Mars is quite similar \_\_\_\_\_ that on Earth.

- A. to
- B. on
- C. at
- D. with

Câu 22. Have you ever seen a flying \_\_\_\_\_?

- A. danger
- B. saucer
- C. outer
- D. painter

Câu 23. Neil Armstrong is considered as the first person \_\_\_\_\_ on the Moon.

- A. step
- B. steps
- C. stepping
- D. to step

Câu 24. There have been some traces proving the \_\_\_\_\_ of aliens.

- A. exist
- B. existence
- C. existing
- D. existed

Câu 25. I can't stand \_\_\_\_\_ with such a talkative person like her.

- A. talking
- B. talk
- C. talked
- D. to talk

Câu 26. It was so kind of him \_\_\_\_\_ me when I was homeless

- A. accommodate
- B. to accommodate
- C. accommodating

D. accommodated

**Câu 27. Our lives are in \_\_\_\_\_ because of pollutions**

A. danger

B. saucer

C. surface

D. system

**Câu 28. The astronaut wears a \_\_\_\_\_ to protect him from the dangers of being outside in space.**

A. spacesuit

B. swimsuit

C. suit

D. sleeping bag

**Câu 29. Scientists think it is possible to send humans on a \_\_\_\_\_ to Mars by the 20130s.**

A. weight

B. buggy

C. mission

D. trace

**Câu 30. "What subject do you find the most difficult?" My mother asked.**

**⇒ My mother asked what subject \_\_\_\_\_ the most difficult.**

A. do you found

B. I found

C. did I find

D. did I found

**Read the passage below and decide whether the statements are TRUE or FALSE?**

Long ago, people thought the Moon was a god and we would never be able to reach it.

However, the invention of telescopes in 1608 enabled people to learn that the Moon is just another planetary body. And mankind's dream of walking on the Moon suddenly seemed possible.

The dream came true on July 20th, 1969 when Neil Armstrong, Buzz Aldrin, and Michael Collins flew to the Moon as part of the Apollo 11 lunar mission. Neil Armstrong was the first to step onto the Moon. After admiring the tranquil, desolate beauty of the Moon's surface, Neil Armstrong and Buzz Aldrin completed their mission, while Collins stayed in orbit to maintain the systems on board the spacecraft.

During the stay of more than twenty-one hours on the Moon's surface, the astronauts found no rain or wind at all. The Moon was like a desert with plains, mountains, and valleys. The surface was covered with dust, which was so thick that they left footprints where they had walked. They left a United States of America flag there and return to Earth with forty-six pounds of moon rock for scientific study.

**Câu 31. People have known all about the Moon for thousands years**

- A. True
- B. False

**Câu 32. The invention of telescopes helped people to understand that the Moon is not a god.**

- A. True
- B. False

**Câu 33. Only Neil Armstrong and Buzz Aldrin stepped onto the Moon.**

- A. True
- B. False

**Câu 34. The climate on the Moon was unfriendly, with a lot of rain and wind**

- A. True
- B. False

**Câu 35. The astronauts stayed on the Moon for nearly one day**

- A. True
- B. False

**Choose the letter A, B, C or D to complete the passage below**

Hi. We are from Neptune, the eighth planet from the Sun in the Solar System. Our planet is named (6) \_\_\_\_\_ the Roman god of the sea. The climate here is very unfriendly, with a temperature of around -300 degrees Celsius, and the winds are very

strong. Actually, we have a lot of storms here. Everything is freezing on the (7) \_\_\_\_\_ of Neptune, so of course we don't have liquid water. To be able to survive here, we have to build all of our cities underground, a hundred kilometers beneath the surface. Luckily, we don't have Neptune-quakes!

Our life here is very different from your life on earth. Because it's extremely (8) \_\_\_\_\_ underground, we have a very good lighting system on round the clock. Every day, we need only three hours for sleep, four hours for work, and the rest of the day we (9) \_\_\_\_\_ on our leisure activities. So life is relaxing. Most of us like traveling to other planets for new experiences. Although we are (10) \_\_\_\_\_ than you in size, we can move very fast. In fact, we have wings, so we can fly. Thus, we don't suffer heavy traffic like on your earth. We don't have oxygen either, but we live on hydrogen.

### Câu 36. (6)

- A. for
- B. in
- C. after
- D. to

### Câu 37. (7)

- A. system
- B. surface
- C. trace
- D. trek

### Câu 38. (8)

- A. dark
- B. bright
- C. good
- D. happy

### Câu 39. (9)

- A. explore
- B. spend
- C. have

D. step

**Câu 40. (10)**

- A. most big
- B. biggest
- C. bigger
- D. the bigger

**Choose the letter A, B, C or D to answer these following questions**

A new study published in the journal Science shows definitive evidence of organic matter on the surface of Mars. The data was collected by NASA's nuclear-powered rover Curiosity. It confirms earlier findings that Mars, the Red Planet once contained carbon-based compounds. These compounds - also called organic molecules - are essential ingredients for life as scientists understand it.

The organic molecules were found in Mars's Gale Crater, a large area that may have been a watery lake over three billion years ago. The rover encountered traces of the molecule in rocks extracted from the area. The rocks also contain sulfur, which scientists speculate helped preserve the organics even when the rocks were exposed to the harsh radiation on the surface of the planet.

Scientists are quick to state that the presence of these organic molecules is not sufficient evidence for ancient life on Mars, as the molecules could have been formed by non-living processes. But it's still one of the most astonishing discoveries, which could lead to future revelations. Especially when one considers the other startling find that Curiosity uncovered around five years ago.

**Câu 41. Did Mars contain carbon-based compounds?**

- A. Yes, it did
- B. No, it didn't

**Câu 42. What may have been in Mars's Gale Crater?**

- A. a mountain
- B. a forest
- C. a lake
- D. a hill

**Câu 43. What was the role of sulfur in the rocks?**

- A. It helped preserve the organics
- B. It formed the rocks
- C. It made the atmosphere
- D. It made life possible

**Câu 44. Have there been enough evidences to confirm the existence of life on Mars?**

- A. Yes, there have
- B. No, there haven't

**Câu 45. Why are the evidences in sufficient to claim life on Mars?**

- A. The molecules could have been formed by non-living processes.
- B. The molecules exist everywhere on the planet.
- C. All planets have these molecules.
- D. The existence of these molecules is not strong enough

Choose the letter A, B, C or D to complete the sentences with given words

**Câu 46. The reporter/ wanted/ know/ why/ I/ not/ taken/ a picture/ when/ I/ had seen. the UFO.**

- A. The reporter wanted know why I hadn't taken a picture when I had seen the UFO.
- B. The reporter wanted know why I didn't taken a picture when I had seen the UFO.
- C. The reporter wanted to know why I hadn't taken a picture when I had seen the UFO.
- D. The reporter wanted to know why I didn't taken a picture when I had seen the UFO.

**Câu 47. Do/ you/ think/ astronauts/ feel/ great sense/ loneliness/ when/ travel/ alone/ space?**

- A. Do you think astronauts feel great sense of loneliness when traveling alone in space?
- B. Do you think astronauts feel great sense of loneliness when travel alone in space?
- C. Do you think astronauts feel a great sense of loneliness when travel alone in space?
- D. Do you think astronauts feel a great sense of loneliness when traveling alone in space?

**Câu 48. About 95%/ the atmosphere/ on Mars/ be/ carbon dioxide, which/ be/ poisonous/ breath**

- A. About 95% of the atmosphere on Mars is carbon dioxide, which is poisonous to breath.
- B. About 95% on the atmosphere on Mars is carbon dioxide, which is poisonous breath.
- C. About 95% on the atmosphere on Mars is carbon dioxide, which is poisonous to breath
- D. About 95% of the atmosphere on Mars is carbon dioxide, which is poisonous breath.

**Câu 49. In the film, John Harrison/ be/ space terrorist/ who/ want/ destroy/ the Earth**

- A. In the film, John Harrison is a space terrorist who wants destroy the Earth.
- B. In the film, John Harrison is space terrorist who wants to destroy the Earth.
- C. In the film, John Harrison is a space terrorist who wants to destroy the Earth.
- D. In the film, John Harrison is space terrorist who wants destroy the Earth.

**Câu 50. The/ biggest problem/ for/ humans/ live/ other planets/ be/ lack/ atmosphere and water.**

- A. The biggest problem for humans to live in other planets is lack of atmosphere and water.
- B. The biggest problem for humans living on other planets is lack of atmosphere and water.
- C. The biggest problem for humans to living in other planets is lack of atmosphere and water.
- D. The biggest problem for humans to live on other planets is lack of atmosphere and water.

**Rearrange the sentences to make meaningful sentences**

The/ with/ Moon/ a/ plains/ was/ mountains/ like/ and/ valleys/ desert/.

**Câu 51. Do/ 88 Earth days/ you/ it/ for/ Mercury/ that/ takes/ the Sun/ orbit/ once/ to?**

- A. Do you know that it takes 88 Earth days for Mercury to orbit the Sun once?
- B. Do you know that 88 Earth days takes it for Mercury to orbit the Sun once?
- C. Do you know that Mercury takes 88 Earth days for it to orbit the Sun once?
- D. Do you know that it takes to orbit 88 Earth days for Mercury the Sun once?

**Câu 52. Jupiter/ in/ largest/ is/ solar/ the/ system/ the/ planet**

- A. Jupiter is the planet largest in the solar system.
- B. Jupiter is the largest planet in the solar system.

- C. Jupiter is the largest solar planet in the system
- D. Jupiter is the largest planet the solar in system.

**Câu 53. NASA/ launch/ decided/ Cape Canaveral/ end/ at/ from/ of/ the/ a rocket/ this year.**

- A. NASA decided launch to a rocket from Cape Canaveral at the end of this year.
- B. NASA decided launch from a rocket to Cape Canaveral at the end of this year.
- C. NASA decided to launch a rocket at from Cape Canaveral the end of this year.
- D. NASA decided to launch a rocket from Cape Canaveral at the end of this year.

**Câu 54. They/ to/ are/ a/ that/ accommodate/ could/ the/ planet/ attempting/ find/ Earth's population.**

- A. They are attempting to find a planet that could accommodate the Earth's population
- B. They are to find attempting a planet that could accommodate the Earth's population.
- C. They are attempting to accommodate a planet that could find the Earth's population.
- D. They are attempting to find a population that could accommodate the Earth's planet.

**Rewrite sentences without changing the meaning**

**Câu 55. The universe is so interesting that human want to know more about it.**

- A. Although the universe is interesting, human want to know more about it.
- B. Because the universe is interesting, human don't want to know more about it.
- C. Although the universe is interesting, human don't want to know more about it.
- D. Because the universe is interesting, human want to know more about it.

**Câu 56. "Will aliens become good friends with humans?" Nick asked his teacher.**

- A. Nick asked his teacher if alien will become good friends with humans.
- B. Nick asked his teacher if alien become good friends with humans.
- C. Nick asked his teacher if alien would become good friends with humans.
- D. Nick asked his teacher if alien does become good friends with humans.

**Câu 57. "Close the door, please! It's very noisy." She said.**

- A. She said me to close the door.

- B. She told me to close the door.
- C. She advised me to close the door.
- D. She thanked me to close the door.

**Câu 58. I asked Ms. Gray if she could speak Martian language.**

**"\_\_\_\_\_?" I asked Ms. Gray.**

- A. Could you spoke Martian language?
- B. Can you speak Martian language?
- C. Could you speak Martian language?
- D. Can you spoke Martian language?

**Câu 59. If I saw an alien, I would ask it to take some pictures.**

- A. I haven't seen an alien before.
- B. I have an alien friend.
- C. I often take pictures of aliens.
- D. I love playing with aliens.
