### Living in the Ice Age

(I'm a scientist) and (I arrived here in Antarctica three months ago in December) The temperature is cold but not unpleasant yet. Since arriving, I have worked with about 60 other people getting everything ready for the Antarctica winter. It's been a lot of hard work, but it was fun too. However, a few days ago the ship left taking most of the staff with it, and it won't be back to fetch us until next December. So the hardest thing to get used to is that there are now just fourteen of us because I'm used to working in a large company.

I'm living on the same work station I was on ten years ago. It was new then and it's still in good condition and unchanged. The dried food we get is also the same - you forget what real food tastes like after a few weeks. The people working here with me are all different from then, but I'm always happy getting to know new people. (Ten years ago, we were all able to send faxes to friends and family once a month) but today we can send emails and talk on the phone so we don't feel so far away.

56. What is the job of the writer?

- A. doctor      ☒ B. scientist      C. engineer      D. teacher

57. When did the writer arrive in Antarctica?
